Business Partner Training Classes 2012

Sielox would like to announce our business partner training class schedule for first quarter of 2012. This class is recommended to all Business Partners, as we offer an in-depth look at the Pinnacle Software and Hardware. Attendees will be introduced to the latest software and hardware updates as well as learn about the latest features and third-party integration. The Sielox Business Partner training class provides hands-on projects and exercises. All attendees will be tested at the completion of the course, receiving Sielox Business Partner Technician Certification. Attendees are provided with all necessary materials and equipment for the course. For additional information please visit us at www.sielox.com/BusPartnerTraining.aspx
