NuVision Networks - One Card Systems

Integrating Sielox Access Control into iAMECS Advanced One Card System

Colleges and Universities can integrate Electronic Access Control into iAMECS One Card System and benefit from features such as:

- Network Encryption (AES)
- Door Access, Parking Lot Control, Alarm Integration
- Visitor Management
- Holidays, Access Levels
- Scheduling
- HR and Active Directory interfacing
- Time & Attendance 3rd party interfacing
- Biometric Technology

Pinnacle™ SDK is the interface between the two systems that allows iAMECS to input data into the Pinnacle database through a secured connection.

iAMECS & Sielox Access Control Integration
