

## PassagePoint™ Web Pre-Registration

### Cuts Registration Time By As Much As 90%

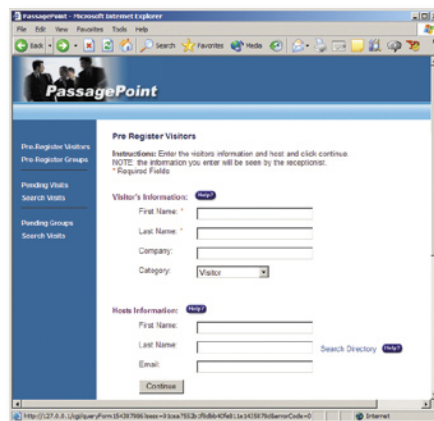

PassagePoint's Web Pre-Registration module provides an exceptionally fast way for employees to pre-register visitors, even groups numbering in the hundreds. This lobby security tool from STOPware, the leader in advanced visitor management solutions, is far more than a simple web-based form. It's a robust online application that increases your control of the registration process and reduces the time it takes to register, authenticate, and badge visitors by as much as 90%.

### Improves Internal Communications and Corporate Image

PassagePoint's new Web Pre-Registration module is designed to take the guesswork out of pre-registration. Its advanced functionality improves communication between employees and lobby staff, eliminating the awkwardness of lobby visitors standing around for long periods. In turn, this enables lobby staff to better focus on greeting your customers and suppliers, personalizing their experience and improving company image in the process.

### More Control from STOPware

With PassagePoint's new Web Pre-Registration module, STOPware continues to make visitor management faster, simpler, and more secure. No other company gives you more control in verifying, screening, and badging visitors.

PassagePoint v4.5 Web Pre-Registration module

### Key Features and Benefits

- Pre-register individuals or upload lists of whole groups of visitors
- Designate access by buildings, floors, and working areas
- Retain records and allow employees to modify and update registration information as needed
- Specify recurring visits, access levels, and provide special instructions for receptionists
- Record primary and secondary contacts to aid registration
- Pre-print badges to save lobby staff time

### Customization and Added Security

- Option to use PassagePoint Application Server to manage log-ins or use existing/3rd party web-based password systems
- Ability to customize HTML pages and fields to match your corporate "look and feel"
- Ability to add secondary approval level/security check of pre-registered visitors

### System Requirements

- PassagePoint Client License
- Pentium III or Equivalent
- Windows 98, 2000, NT, XP, 2003
- Microsoft Internet Explorer 4.0+ or Netscape Navigator 4.0+
- 128 MB RAM minimum; 256 MB RAM recommended
- 20 MB of free hard disk space
